# What we are different?

- We can **design the system** (Not like almost other IT companies who just can do the *coding phase*). – Customer just have to give requirements, we do the rest.
- We can use Japanese at almost **native level**. Besides, we can use English, German at business level.
- We are proud of “**never give up**” spirit.  
The ERP for trading company, The cinema management system are all **over-100-manmonth** project, and we *fought till the end* to fix all bugs (more than 1,000 bugs at climax time)
